VI. Reading Comprehension(26M)

Read the following text, then answer the questions below :

Life was not always full of roses for Elisa. She was born into a life of poverty and suffering. Her parents were lowly-paid farmers who nearly fulfilled her needs. They did not have the means to send Elisa to school. She spent her days running around with the other village children who like her could not afford to go to school.

When Elisa was nine, her parents passed away due to ill health. She was then sent to the local orphanage. There, she was finally given a chance to learn. She was taught the alphabet and how to read and write. She was a very **bright** student who was hungry for knowledge and learnt very quickly. Two years later, Elisa was finally adopted by a rich businessman and his wife.

Elisa lived with her new adoptive parents in the United States. She slowly grew to love them and like her new life. **They** sent her to a proper school to catch up with her peers. Elisa was very happy and contented. She devoted much time to her studies and got good grades in school. Her adoptive parents were very proud of her.

Over the next few years, Elisa continued to get top in her studies. This was because she came from a poor background and treasured the chance to be given a proper education. She finally did well enough to go to university.

In the university, Elisa studied psychology. She was interested in specializing in child psychology. She wanted to be able to work with the less lucky children. She wanted to be able to make a difference in their lives. By then, she had even started volunteering her time and services at an orphanage during her free time. She often told the children in the orphanage her own life experiences. She was a motivation to many of them there. In turn, working with those orphans reminded her of her own beginnings and how far she had come. It made her appreciate her life more and strengthened her determination to help other children like herself.

A) From a, b, c and d, choose the correct answer: (4 x 3 = 12 M)
