Travelling is something which people do every day. It is very difficult to keep away from the need to travel. It may be a trip to school, university or to work. Travelling can often take a long time, especially when great distances need to be covered. People often enjoy travelling abroad for holidays. But for some people travelling is not fun because they suffer from travel sickness. **They** will become unwell each time they travel.

Travelling can be either cheap or **costly**. It often depends on how far you want to travel and the choice of transport. Using a bicycle will not cost anything as you power it by using your legs.
